### WHY CHOOSE MY SENSUAL GIFT?

Some ladies are nervous because they're not sure what their husband or boyfriend will think about them being photographed by another man. Trust me, **as a man, we do not think like that.** We've actually encouraged ladies to bring their guys with them to the shoot. For a guy, this is like going to a Playboy® shoot, and you get to take the Playmate® home! We have never had an instance where a man was upset because I am a male photographer.

There is also an added benefit to having a male photographer, **the photographer thinks like a man!** The majority of these gifts are given to a lady's special man. Most women photographers think in the realm of cute and pretty, these ideas just don't compute with men. A man wants something more sensual and sexy in nature, To be brief, he wants something HOT and with as little clothing as possible!

One thing you could do that would really help your nerves a lot is to come and **visit with us on a separate day before the shoot.** This way you can leisurely talk to us and we can discuss your shoot, we can talk about the outfits you need to bring, your shoes and accessories. In addition, you can see our wonderful facilities as **we truly do have a very professional studio!** This pre-visit will help calm your nerves right away! On our website, there is also a video in the about menu that shows what our studio looks like and the facilities we offer!

The best thing that I can tell you to do to overcome your nervous anticipation is to **read our reviews.** You can Google "My Sensual Gift" and you will find 160+ reviews that you can read all about us. There is even a section on our website where you can go directly to our reviews on Google, Wedding Wire, Yelp and the Yellow Pages. These will give you an insight into how ladies feel nervous at first and then having fun before during and after the shoot, and I can tell you they have a lot of fun! You can also bring a friend with you if you like, many ladies do this to combat nervousness and it's a lot of fun for both of them!

*One of many reviews...*

I recently had my shoot with Nolan Conley and not only did I have a blast, he and his wife made me feel very at ease. I did extensive research before choosing Nolan and I decided to select him because: 1) He does not share your photos with anyone unless he has your explicit written consent. You are the only one that can purchase your photos. 2) He is very responsive to your concerns. If you call, either he or his wife will answer. They never rush you off of the phone. I was very nervous about doing a boudoir shoot, but he covered all of the bases in terms of what I needed to know and guided me on how I needed to prepare for a boudoir shoot. 3) Nolan has EVERYTHING you will need at his location including props, clothing, jewelry, and footwear. He also has multiple inside backdrops for your photos including a beautiful daybed and vanity. There is also beautiful scenery outside where you will find a small grassy island with a beautiful weeping willow tree on it that is surrounded by a pond as well as an outdoor shower for more sensual shots. 4) If you don't know how to pose or are insecure about your body don't worry. Nolan is a master with Photoshop and he will also direct you on how to pose. He will make your photos look like they are in a magazine! I was so surprised at how he was able to remove blemishes on my face, rolls on my body and even cellulite! Finally, I have to say that being a mother of two I came in to the session somewhat insecure about my body. I am so appreciative of Nolan Conley and his wife Lucinda because they did not just provide me with beautiful photos, but they made me feel confident about my body. I now have photos that I can share with my husband and that will last a lifetime. With any other photographer, you are likely going to feel overcharged and unimpressed with the results. There really is no other choice but to get your pictures done by Nolan & Lucinda Conley.
